

GROUP TRAVEL

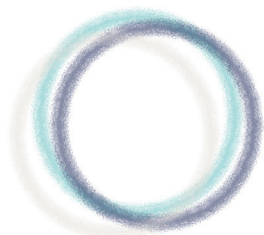

Massage Package

Whether it's before, during, or after - massages are the perfect addition to any group gathering, corporate meeting, or vacation getaway.

It's a fact. Massage is much more than a warm and fuzzy feel-good frill. Massage enhances alertness and mood. It increases blood and lymph circulation and reduces stress. It boosts immunity and enhances productivity. Massage lessens fatigue and reduces anxiety. On top of it all - massage releases the same kind of feel-good endorphins as an intense workout - without the work!

Our on-site, licensed, and trained therapists are here to assist and enhance your group experience. There is no extra charge for pampering a group; there is actually a special discounted rate! Our custom-tailored spa programs are designed to achieve your specific group goals. Rates may vary and further discounted package prices are available upon request. Contact us directly and we will be happy to customize a massage and spa plan for your group!
